

AHD FMCG POLYMERIC TECHNICAL PRODUCTS

T-SHIRT BAGS

Our T-shirt bags offer a versatile and cost-effective packaging solution, ideal for retail and grocery use. Crafted from high-quality polyethylene, they ensure excellent durability and lightweight construction, making them easy to carry. Available in various sizes and colors, these bags can be fully customized to include branding for enhanced visibility.

STRETCH & SHRINK FILMS

Our stretch and shrink films provide dependable packaging solutions for product protection and stability. Stretch films offer excellent elasticity for pallet wrapping, while shrink films provide secure, tight coverage. Made with premium materials, these films are durable, puncture-resistant, and available in various thicknesses to suit industrial and retail applications.

GARBAGE BAGS

Our garbage bags are built for strength and durability, offering a reliable waste disposal solution for households and businesses. Made from high-quality polyethylene, they resist tearing and punctures, even with heavy or sharp waste. Available in various sizes and thicknesses, these bags feature easy-to-tie tops for added convenience.

AHD Plastics is a leading supplier and exporter of polymeric raw materials in the region. Our commitment to sustainable growth, workforce training, and equipment upgrades has driven significant sales increases and quality improvements over the years, positioning AHD Plastics as a global leader in polymeric raw material supply.
